INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Members
Authority for California Cities Excess Liability
San Francisco, California

Report on the Financial Statements

We have audited the accompanying financial statements of the Authority for California Cities Excess Liability as of and for the years ended June 30, 2018 and 2017, and the related notes to the financial statements, which collectively comprise the Authority for California Cities Excess Liability's financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, the *State Controller's Minimum Audit Requirements for California Special Districts* and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(Continued)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority for California Cities Excess Liability, as of June 30, 2018 and 2017, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 8, the Reconciliation of Claims Liabilities on page 21, and the Claims Development Information on page 22, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority for California Cities Excess Liability's financial statements. The Schedule of Retrospectively Rated Refund Liability By Member Summary - All Program Years on pages 24 through 55 is presented for purposes of additional analysis and is not a required part of the financial statements.

The information has not been subjected to the auditing procedures applied in the audits of the financial statements and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 12, 2018 on our consideration of the Authority for California Cities Excess Liability's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority for California Cities Excess Liability's internal control over financial reporting and compliance.

**AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2018 AND 2017**

The following report reflects the financial condition of the Authority for California Cities Excess Liability for the fiscal year ended June 30, 2018. The information contained here is provided in order to enhance the information within the financial audit, and should be reviewed in concert with that report.

An Overview

The Authority for California Cities Excess Liability (ACCEL) was founded in 1986 to provide medium-sized California cities a risk financing vehicle for catastrophic losses. ACCEL currently has 12 members throughout California. ACCEL operates a liability risk pooling program which is subject to an annual independent financial audit, claims audit and an annual actuarial study. ACCEL also allows optional participation in an excess workers' compensation program that involves no shared risk, ACCEL serves as a conduit to jointly purchase coverage.

ACCEL is governed by a twelve member Board of Directors. Each member agency appoints a representative to the Board of Directors. The Executive Committee appoints members to its three standing committees (Underwriting, Finance and Claims). The Underwriting Committee is chaired by the Vice-President, the Finance Committee is chaired by the Treasurer and the appointed members of the Claims Committee elect their Chair. Ad hoc Committees may be appointed by the President.

For the 2017/18 fiscal year, ACCEL pooled the \$4,000,000 excess of a \$1,000,000 Member Retention. ACCEL charged its members \$0.53 cents per one-hundred dollars of payroll for the ACCEL self-funded layer. All members purchased excess insurance limits of at least \$50,000,000. In addition, the Cities of Anaheim, Bakersfield, Burbank, Mountain View, Ontario, Palo Alto, Santa Cruz and Santa Monica purchased optional limits of \$75,000,000. The Cities of Anaheim, Mountain View, Palo Alto and Santa Monica purchased additional optional excess limits to \$100,000,000. The Cities of Anaheim, Palo Alto and Santa Monica purchased additional optional excess limits to \$150,000,000. The Cities of Palo Alto and Santa Monica purchased a shared limit excess liability policy to \$200,000,000. Members were charged Administrative costs totaling \$476,300.

In comparison, for the 2016/17 fiscal year, ACCEL pooled the \$4,000,000 excess of a \$1,000,000 Member Retention. ACCEL charged its members \$0.51 cents per one-hundred dollars of payroll for the self-funded \$4,000,000 excess of a \$1,000,000 member self-insured retention. All members purchased excess insurance limits of \$50,000,000. In addition, the Cities of Anaheim, Mountain View, Ontario, Palo Alto and Santa Monica purchased optional limits of \$75,000,000. The Cities of Anaheim, Palo Alto and Santa Monica purchased a shared limit excess liability policy to \$150,000,000, with Palo Alto and Santa Monica also purchasing additional limits to \$200,000,000. Members were also charged Administrative costs totaling and \$479,650.

ACCEL's day-to-day operations are administered by Alliant Insurance Services, Inc. (Alliant). Alliant is contracted by ACCEL to provide accounting, risk consulting, insurance brokerage and program administration services. Alliant's responsibility also includes the administration of policies and procedures as set forth by the ACCEL Joint Powers Authority (JPA) Agreement, Bylaws, and by the Board of Directors.

Description of Basic Financial Statements

Individual program year accounting is maintained for ACCEL’s Liability Program and is provided as supplemental information to the Statement of Net Assets, Statement of Revenues, Expenses and Change in Net Assets, and the Statement of Cash Flows. The Statement of Net Assets provides information about the combined financial position of ACCEL as of June 30, 2018 and 2017. The Statement of Revenues, Expenses and Change in Net Assets reports the operations of the organization for the years ended June 30, 2018 and 2017. The Statement of Cash Flows is presented on the direct method to reflect the operations of ACCEL for the years ending June 30, 2018 and 2017 based strictly on the inflow and outflow of cash.

The notes to the basic financial statements provide information on ACCEL’s accounting policies such as discounting of claims reserves, development of estimates of incurred but not reported (IBNR) liabilities and the provision for unallocated loss adjustment expenses. Crowe LLP, Certified Public Accountants, has performed an independent audit of our financial statements in accordance with generally accepted auditing standards. The firm’s opinion is included in the Financial Section of this report.

Analysis of Overall Financial Position and Results of Operations

The Net Position of ACCEL increased by \$2,998,764 from June 30, 2017 to June 30, 2018. This occurred because revenues exceeded expenditures by this amount. Unpaid Claims liabilities were reduced, after a large increase in the prior year. Additionally, ACCEL’s Board of Directors took action to restrict \$6,000,000 from the Retrospectively Rated Refund, limiting the amount available to withdraw. As new program years are added to the Retro Calculation, we expect the amount available for members to be reduced, at which point we will recommend removing the \$6,000,000 restriction. These steps strengthen the financial position of ACCEL, while providing pricing stability to the members by avoiding potential assessment.

Investment Income

ACCEL retains an investment advisor, Chandler Asset Management, to assist in managing long term investments. All investments are made with reference to ACCEL's Investment Policy as adopted by the Board of Directors. Investment revenues are used to offset program costs wherever possible and reduce the required member contributions.

ACCEL invests those funds not immediately necessary for the payment of claims in order to optimize the rate of return. Funds are invested in a manner that will protect principal, allow for cash flow needs and optimize returns, and are in conformity with all federal, state and local statutes governing such investments of public funds. Those assets needed for current operations are maintained in the Local Agency Investment Fund (LAIF) in Sacramento, which is administered by the State Treasurer's Office.

The ability of these funds to earn investment income has a direct effect on program rates, as this income is used to discount future liabilities. If investments fall short of projections, additional funding may be required to meet actuarial estimates.

Revenues

Pool operating revenues consist of contributions received from members' interest income and administrative fees.

Claim Payments and Reserves

ACCEL processes claims and pays for covered losses experienced by its members excess of \$1,000,000. All excess claims are administered by Risk Management Services (RMS) in Cotati. Between the time a claim is reported and the time it is resolved, reserves are established for the estimated amount that will have to be paid at some future date to settle the loss. The reserves are also established for claims that have occurred, but are not yet known to ACCEL. This is known as IBNR (incurred but not or under reported) reserves and recognizes losses in the current year for claims that will not be reported until future periods. This process allows a matching of current year contributions with estimated total losses that will be incurred as the result of current fiscal year coverages.

Reinsurance

Traditionally, ACCEL pools risk between \$1,000,000 and \$5,000,000, and may pool more or less depending on market conditions.

For Fiscal Year 2017-18, ACCEL did not purchase reinsurance and retained the full \$4,000,000 excess of \$1,000,000 layer.

For Fiscal Year 2016-17, ACCEL found favorable reinsurance terms from Markel/Evanston Insurance Company for the \$2,000,000 excess of \$3,000,000 layer. By purchasing this layer of reinsurance, ACCEL was able to reduce the effective cost of coverage by spending \$810,257 in reinsurance premium, for a layer of coverage our actuary projected to cost \$1,270,606 at ACCEL's 80% confidence level.

Excess Liability Insurance Expense

ACCEL operates in an environment that is partially dependent on the insurance market. Historically, the insurance market has operated in 3 to 7 year cycles in which rates will swing from the very high to the very low and back again.

From 1987 to 2002, the Insurance marketplace was relatively competitive for municipal liability.

ACCEL

Authority for California Cities Excess Liability
c/o Alliant Insurance Services, Inc.
Corporate Insurance License No. 0C36861
100 Pine Street, 11th Floor, San Francisco, CA 94111-2711

The 2002 renewals began a hard market cycle that resulted in the ACCEL Board electing to retain more risk where the price of insurance exceeded the actuarial cost of self-insurance.

The insurance renewals since the 2008/09 coverage term increased and were difficult to place due to decreased capacity, increased exposure to terrorism, poor investment results and a general concern on the part of insurers, resulting in rate increases and limitations to coverage.

Between the 2010/11 to the 2017/18 renewal, excess liability premiums remained fairly consistent. ACCEL's pool layer retention remained at \$4,000,000 excess of \$1,000,000, which allowed ACCEL to attach to excess insurance carriers at an attractive layer for underwriters because there is very little claims frequency excess of \$5,000,000. Members determined that additional limits are advisable and they have elected to add optional excess limits. While certain insurance carriers have left the excess municipal market in California, new markets continued to provide suitable capacity to place the excess insurance. For the 2017/18 year, the price of coverage was in line with market conditions, but ACCEL's large increase in claims reserves give reason to expect increases for the 2018/19 renewal.

Administrative Expenses

For the 2017/18 and 2016/17 fiscal years, ACCEL budgeted \$476,300 and \$479,650, respectively for general administrative expenses. The administrative expenses are shared equally among members. The administrative expenses include program administration, claims administration, meeting expenses, memberships, technology services and audit services.

Retrospective Rating Plan

The share of risk that Members assume is based on both their size (based on payroll) and their future losses. Calculations are made retrospectively, and based on covered losses that occurred during the program year and the next three years. The Retrospective Rating Plan (RRP) is the foundation piece of ACCEL's Financial Plan Policy & Procedure. The RRP is used to determine if any assessments are needed or if return funds are available.

At the end of each Program Year plus five subsequent years, ACCEL calculates each Member's share of pooled costs. The cost allocation calculation for each Program Year is recalculated annually until the Program Year is administratively closed. Program Years 1 through 22 (86/87–07/08) are administratively closed. For Fiscal Year ending June 30, 2018, ACCEL two members withdrew a total of \$800,000 (taken by the Cities of Monterey and Mountain View). For Fiscal Year ending June 30, 2017, no members withdrew funds.

Through June 30, 2016, the amount available to withdraw increased to \$17,362,147. At June 30, 2017, the retro calculation resulted in an initial available amount of \$23,175,007; however, the Board of Directors took action to restrict \$4,000,000 from the amount available, resulting in a final retro liability of \$19,175,007. At June 30, 2018,

ACCEL

Authority for California Cities Excess Liability

c/o Alliant Insurance Services, Inc.

Corporate Insurance License No. 0C36861

100 Pine Street, 11th Floor, San Francisco, CA 94111-2711

the retro calculation resulted in an initial available amount of \$23,817,017. The Board of Directors took further action and restricted an additional \$2,000,000, for a total of \$6,000,000, resulting in a final retro liability of \$17,816,017.

Analysis of Balances and Transactions

Member contributions for the Liability Program remain stable for the year ended June 30, 2018, despite the increases in unpaid claims and claims adjustment expenses. Other general and administrative expenses held reasonably constant from the 2015/16 fiscal year through the 2017/18 fiscal year. The overall decrease in total assets for the year ending June 30, 2018 was \$424,816 to an ending total asset position of \$50,376,318.

Possible Conditions Impacting Financial Position

With respect to current facts, conditions, or decisions that may impact the financial position of ACCEL, there are no known issues either internal to the JPA nor the external environment that are expected to materially impact the organization. This being said, the liability insurance environment in California remains in an uncertain state. While system costs have risen dramatically over the past several years, ACCEL has taken action to address rising costs.

ACCEL

Authority for California Cities Excess Liability

c/o Alliant Insurance Services, Inc.

Corporate Insurance License No. 0C36861

100 Pine Street, 11th Floor, San Francisco, CA 94111-2711

Capacity in the excess general liability market for governmental agency risks remains tight, and several high profile claims within California are likely to keep underwriting facilities from pricing such risks much differently than they have over the past twelve months. Finally, while ACCEL believes that it has properly addressed the probable catastrophic events facing its membership, there is no guarantee that a catastrophic event could not financially impact the Authority or individual members if the loss exceeded the protection purchased by that member.

Request for Information

This financial report is designed to provide a general overview of ACCEL's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the ACCEL Treasurer, Jena Covey, City of Bakersfield, 1600 Truxtun Avenue, 5th Floor, Bakersfield, CA 93301.

AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2018 and 2017

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General: The Authority for California Cities Excess Liability (ACCEL) is a joint powers authority organized under the provisions of Section 6500 et. seq. of the California Government Code for the purpose of establishing a risk management pool for certain California municipalities. ACCEL began operations in 1986 and provides certain limited coverage for catastrophic general liability, automobile liability and public officials errors and omissions losses. Certain types of risk are not covered by these pools, such as dams and airports.

ACCEL provides coverage above each member's self-insured retention (SIR), subject to aggregate limits. Historically, ACCEL provided an optional coverage of \$500,000 excess of \$500,000 per occurrence through 1989-90; however, this coverage is no longer available.

Prior to July 1, 1990, ACCEL pooled losses incurred by its members up to \$10,000,000. Effective July 1, 1990, ACCEL created a reinsurance pool within the \$9,000,000 excess of \$1,000,000 layer by purchasing \$5,000,000 excess of \$5,000,000 coverage. On July 1, 1997, ACCEL further reduced its exposure and purchased coverage of \$17,000,000 excess of \$3,000,000 coverage. Due to favorable market conditions, ACCEL purchased coverage of \$19,000,000 excess of \$1,000,000 effective July 1, 1998. Six members with SIRs of \$500,000 purchased additional coverage of \$500,000 excess of \$500,000. As of July 1, 2000, nine members purchased insurance of \$19,500,000 excess of \$1,000,000. ACCEL was fully insured through June 30, 2003.

Effective July 1, 2003, ACCEL purchased a reinsurance policy covering \$20,000,000 excess of \$2,000,000 and pooled losses in the layer \$1,000,000 excess of \$1,000,000. All members have an SIR of \$1,000,000.

Currently, ACCEL is self-funding the \$4,000,000 excess of \$1,000,000 pool and purchasing excess insurance above \$5,000,000. ACCEL provides the Members options to purchase excess limits of \$35,000,000, \$50,000,000, \$75,000,000, \$100,000,000, \$150,000,000, and \$200,000,000. If Members would like additional limits, they are available upon request. Currently, all of the member cities purchased excess limits of \$50,000,000; the Cities of Anaheim, Bakersfield, Burbank, Mountain View, Ontario, Palo Alto, Santa Cruz and Santa Monica purchased the optional excess limits of \$75,000,000; the Cities of Anaheim, Mountain View, Palo Alto and Santa Monica purchased additional optional excess limits to \$100,000,000; the Cities of Anaheim, Palo Alto and Santa Monica purchased additional optional excess limits to \$150,000,000. The Cities of Palo Alto and Santa Monica purchased a shared limit excess liability policy to \$200,000,000.

ACCEL is funded by its member participants and, at the discretion of its Board of Directors, may assess its members for additional premiums (in an unlimited amount) in the event ACCEL's assets at any time are insufficient to discharge its liabilities. Currently, there are 12 cities participating in the pool.

ACCEL has a retrospective rating plan whereby all premiums collected, together with related investment income earned, in excess of pooled losses and loss expenses for each program year will be returned to members beginning five years after the end of the program year. Losses and loss expenses are allocated to each member based on a weighted actual loss formula.

Accounting Policies: The accounting policies of ACCEL conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants.

(Continued)

AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2018 and 2017

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting and Presentation: ACCEL is accounted for as a Business-Type Activity, as defined by Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) 2100, and its financial statements are presented on the accrual basis of accounting. Under this method, revenues and the related assets are recognized when they are earned, and expenses are recognized when the obligation is incurred.

Cash and Cash Equivalents: Cash and cash equivalents are investments readily convertible into known amounts of cash with original maturities at date of purchase of less than three months.

Investments: Investments are reported in the accompanying Statements of Net Position at fair value. Changes in fair value that occur during a fiscal year are recognized as investment earnings reported for that fiscal year. Investment income includes interest income, change in fair value, and any gains or losses realized upon the liquidation, maturity or sale of investments.

Retrospectively Rated Refund Liability: The Retrospectively Rated Refund Liability represents the amount of equity that is eligible for return to the Members of the pool. The liability is computed as the amount of premiums paid into the pool, plus investment income earned in excess of the estimated losses and loss expenses calculated separately for each program year and Member. Members are eligible to receive distributions of this equity (retro-refunds) five years after the end of the program year. The amount declared by the Board as available for payment are reported as a liability to the pool on the statement of net position. The Board may elect to restrict a portion of the calculated available reserves for the purpose of additional future needs of risk management.

Provision for Unpaid Claims and Claim Adjustment Expenses: ACCEL establishes claims liabilities based on estimates of the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled, and of claims that have been incurred but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. Estimated amounts of salvage and subrogation and reinsurance recoverable on unpaid claims are deducted from the liability for unpaid claims. Because actual claims costs depend on such complex factors as inflation, changes in doctrines of legal liability, and damage awards, the process used in computing claims liabilities does not necessarily result in an exact amount, particularly for coverage such as general liability. Claims liabilities are recomputed at least annually using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

Revenue Recognition: Premiums are recognized as earned on a pro-rata basis over the term of the contract (program year), which is generally a one year period ending each June 30. All premiums are subject to the retrospective rating plan described above. Operating revenues and expenses include all activities necessary to achieve the objectives of ACCEL. Non-operating revenues and expenses include investment activities and other non-essential activity.

Administrative Fees: ACCEL members are assessed annually, in equal amounts, for amounts estimated to be sufficient to pay all administrative expenses of ACCEL. Such assessments are subject to adjustment based on actual expense for the year. Application fees are one-time fees paid by prospective members of ACCEL upon application for membership. Such fees are recognized as revenue at the time of application.

(Continued)

AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2018 and 2017

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Other Insurance: ACCEL members may participate in the purchase of other insurance, such as excess workers' compensation and excess liability over \$5 million per occurrence where risk is not transferred to the pool. ACCEL does not administer excess insurance claims; however, ACCEL facilitates the payment of the other insurance by invoicing members and paying premiums, which is reflected as revenue and an equivalent expense in the financial statements. ACCEL also purchases a Crime Policy and Directors and Officers Errors and Omissions Policy which cover ACCEL. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Income Taxes: ACCEL is an organization comprised of public agencies, and is exempt from Federal income and California franchise taxes. Accordingly, no provision for Federal or State income taxes has been made in the accompanying financial statements.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash, cash equivalents and investments as of June 30, 2018 and 2017 are classified in the accompanying financial statements as follows:

	<u>2018</u>	<u>2017</u>
Cash and cash equivalents:		
Cash in bank	\$ 125,233	\$ 181,629
Money market accounts	1,091,177	1,638,739
Local Agency Investment Fund (LAIF)	<u>15,160,440</u>	<u>15,761,231</u>
Total cash and cash equivalents	16,376,851	17,581,599
Investments	<u>33,526,946</u>	<u>33,050,901</u>
Total cash, cash equivalents and investments	<u>\$ 49,903,797</u>	<u>\$ 50,632,500</u>

Investments Authorized by the California Government Code and ACCEL's Investment Policy: ACCEL is authorized by State statutes to invest in securities of the U.S. Treasury and agencies, related commercial paper, medium-term notes rated AA or better with maturities of 5 years or less, certificates of deposit, bankers' acceptances, repurchase agreements, mutual funds, and the State of California's Local Agency Investment Fund (LAIF). Additionally, security purchases and holdings shall be maintained within statutory limits imposed by the California Government Code. Currently, the maximum limits are:

	<u>Maximum Time to Maturity</u>	<u>Maximum Portfolio Percentage</u>
Bankers' acceptances	180 days	40%
Commercial paper	270 days	25%
Negotiable certificates of deposit	2 years	30%
Medium-term corporate notes	5 years	30%
Time deposits	180 days	20%

AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2018 and 2017

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Interest Rate Risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that ACCEL manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. ACCEL monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. ACCEL has no specific limitations with respect to this metric.

As of June 30, 2018:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (In Years)</u>
Federal agency securities	\$ 9,729,299	2.44
Asset-backed securities	1,525,655	2.26
U.S. corporate notes	7,864,556	2.58
U.S. Treasury notes	12,863,060	2.96
Supranationals	<u>1,544,376</u>	3.36
 Total	 <u>\$ 33,526,946</u>	

As of June 30, 2017:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (In Years)</u>
Federal agency securities	\$ 11,656,394	2.57
Asset-backed securities	1,998,737	1.91
U.S. corporate notes	7,457,451	2.73
U.S. Treasury notes	11,050,593	3.13
Supranationals	<u>887,726</u>	4.32
 Total	 <u>\$ 33,050,901</u>	

Investments with Fair Values: The following presents information about the ACCEL's assets and liabilities measured at fair value on a recurring basis as of June 30, 2018 and 2017, and indicates the fair value hierarchy of the valuation techniques utilized by ACCEL to determine such fair value based on the hierarchy:

Level 1 – Quoted market prices or identical instruments traded in active exchange markets.

Level 2 – Significant other observable inputs such as quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a reporting entity's own assumptions about the methods that market participants would use in pricing an asset or liability.

(Continued)

AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2018 and 2017

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

ACCEL is required or permitted to record the following assets at fair value on a recurring basis:

<u>Description</u>	2018			
	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Federal agency securities	\$ 9,729,299	\$ -	\$ 9,729,299	\$ -
Asset-backed securities	1,525,655	-	1,525,655	-
U.S. corporate notes	7,864,556	-	7,864,556	-
U.S. Treasury notes	12,863,060	-	12,863,060	-
Supranationals	<u>1,544,376</u>	<u>-</u>	<u>1,544,376</u>	<u>-</u>
	<u>\$ 33,526,946</u>	<u>\$ -</u>	<u>\$ 33,526,946</u>	<u>\$ -</u>
	2017			
<u>Description</u>	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Federal agency securities	\$ 11,656,394	\$ -	\$ 11,656,394	\$ -
Asset-backed securities	1,998,737	-	1,998,737	-
U.S. corporate notes	7,457,451	-	7,457,451	-
U.S. Treasury notes	11,050,593	-	11,050,593	-
Supranationals	<u>887,726</u>	<u>-</u>	<u>887,726</u>	<u>-</u>
	<u>\$ 33,050,901</u>	<u>\$ -</u>	<u>\$ 33,050,901</u>	<u>\$ -</u>

Fair value methodology: ACCEL's investments are generally classified as Level 2 of the fair value hierarchy, because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable level of price transparency. The types of investments valued based on observable inputs includes federal agency securities, US corporate notes, asset backed securities, commercial paper and US Treasury. The primary observable inputs used in valuing these are the market prices of similar securities. As a result of this valuation methodology, all investment classifications have been classified as Level 2 of the fair value hierarchy for the years ended June 30, 2018 and 2017.

AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2018 and 2017

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Disclosures Relating to Credit Risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the entity's investment policy, or debt agreements, and the actual rating as of year-end for each investment type. The column marked "exempt from disclosure" identifies those investment types for which GASB No. 40 does not require disclosure as to credit risk:

<u>Investment Type</u>	<u>Amount</u>	<u>Exempt From Disclosure</u>	<u>Ratings as of June 30, 2018</u>		
			<u>AAA</u>	<u>AA</u>	<u>A</u>
Federal agency securities	\$ 9,729,299	\$ -	\$ 9,729,299	\$ -	\$ -
Asset-backed securities	1,525,655	-	1,525,655	-	-
U.S. corporate notes	7,864,556	-	-	4,644,586	3,219,970
U.S. Treasury notes	12,863,060	12,863,060	-	-	-
Supranationals	<u>1,544,376</u>	<u>-</u>	<u>1,544,376</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 33,526,946</u>	<u>\$ 12,863,060</u>	<u>\$ 12,799,330</u>	<u>\$ 4,644,586</u>	<u>\$ 3,219,970</u>

<u>Investment Type</u>	<u>Amount</u>	<u>Exempt From Disclosure</u>	<u>Ratings as of June 30, 2017</u>		
			<u>AAA</u>	<u>AA</u>	<u>A</u>
Federal agency securities	\$ 11,656,394	\$ -	\$ 11,656,394	\$ -	\$ -
Asset-backed securities	1,998,737	-	1,998,737	-	-
U.S. corporate notes	7,457,451	-	-	3,174,795	4,282,656
U.S. Treasury notes	11,050,593	11,050,593	-	-	-
Supranationals	<u>887,726</u>	<u>-</u>	<u>887,726</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 33,050,901</u>	<u>\$ 11,050,593</u>	<u>\$ 14,542,857</u>	<u>\$ 3,174,795</u>	<u>\$ 4,282,656</u>

Custodial Credit Risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and ACCEL's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure governmental entity deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

Cash balances held in banks are insured up to \$250,000 by the FDIC. At June 30, 2018 and 2017, the carrying amount of ACCEL's accounts was \$125,233 and \$181,629 and bank balances were \$125,233 and \$181,629, respectively. Of the bank balances, all amounts were covered by FDIC insurance.

(Continued)

AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2018 and 2017

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Concentration of Investment Credit Risk: ACCEL attempts to limit investments in any issuer to no more than 5% of total investments at the time of purchase. ACCEL's Investment Policy further restricts concentrations of investments to no more than 5%, for certain investment types, such as U.S. corporate notes and supranationals. Federal agencies and government-sponsored agencies, such as FNMA, FHLB and FHLMC are not subject to this restriction. At June 30, 2018 and 2017, ACCEL had the following investments that represent more than five percent of the ACCEL's net investments:

	<u>2018</u>	<u>2017</u>
FNMA	14%	14%
FHLB	9%	14%
FHLMC	6%	7%

All of the investments listed above which exceed of 5% of total investments are exempt from the concentration restrictions stipulated in ACCEL's investment policy.

Investment in State Investment Pool: ACCEL is a voluntary participant in LAIF, which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California and the Pooled Money Investment Board. The State Treasurer's Office pools these funds with those of other governmental agencies in the State of California and invests the cash. ACCEL's investment in the pool is reported in the accompanying financial statements based upon ACCEL's pro-rata share of the amortized cost as provided by LAIF in proportion to the amortized cost of entire LAIF portfolio. The funds held in the pooled investments funds are not subject to categorization by risk category. The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Funds may be withdrawn at any time up to the total amount on deposit with LAIF. Most withdrawals are accessible and transferable to ACCEL's master account on the same day as the request, except for amounts greater than \$10,000,000, which require twenty-four hours' advance notice. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset-backed securities, and floating rate securities issued by Federal agencies, government-sponsored enterprises and corporations. LAIF is administered by the State Treasurer. As of June 30, 2018, this fund was yielding approximate interest rate of 1.90% annually. LAIF investments are audited annually by the Pooled Money Investment Board and the State Controller's Office. Copies of this audit may be obtained from the State Treasurer's Office: 915 Capitol Mall; Sacramento, California 95814.

AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2018 and 2017

NOTE 3 – UNPAID CLAIMS AND CLAIMS ADJUSTMENT EXPENSES

ACCEL establishes a liability for both reported and unreported covered events, which includes estimates of both future payment or losses and related claim adjustment expenses. The following represents changes in those aggregate liabilities for ACCEL during the past two years:

	<u>2018</u>	<u>2017</u>
Unpaid claims and claim adjustment expenses at beginning of fiscal year	\$ <u>28,436,000</u>	\$ <u>17,060,000</u>
Incurring claims and claim adjustment expenses:		
Provision for covered events of the current year	5,070,892	4,965,084
Change in provision for insured events of prior years	<u>(535,289)</u>	<u>18,302,199</u>
Total provision for claims and claim adjustment expenses	<u>4,535,603</u>	<u>23,267,283</u>
Payments:		
Claims and claim adjustment expenses attributable to covered events of the current year	-	-
Claims and claim adjustment expenses attributable to covered events of prior years	<u>(4,971,603)</u>	<u>(11,891,283)</u>
Total payments	<u>(4,971,603)</u>	<u>(11,891,283)</u>
Unpaid claims and claim adjustment expenses at end of fiscal year	\$ <u>28,000,000</u>	\$ <u>28,436,000</u>

The components of the unpaid claims and claim adjustment expenses for ACCEL as of June 30, 2018 and 2017 were as follows:

	<u>2018</u>	<u>2017</u>
Claim reserves	\$ 17,280,000	\$ 20,855,000
Claims incurred but not reported (IBNR)	10,060,000	6,971,000
Unallocated loss adjustment expenses (ULAE)	<u>660,000</u>	<u>610,000</u>
	<u>\$ 28,000,000</u>	<u>\$ 28,436,000</u>

These liabilities are reported at their present value using an expected future investment yield assumption of 2% for years ended June 30, 2018 and 2017, respectively. The undiscounted liabilities are \$30,126,529 and \$30,575,553 at June 30, 2018 and 2017, respectively.

ACCEL experienced favorable claims development in the current year with respect to prior years' activity. The incurred amounts presented above for the year ended June 30, 2017 indicate that reserves recorded by ACCEL developed unfavorably during that year. The change in incurred development related to prior years is generally the result of ongoing analysis of loss development trends as the program periods continue to increase, and consideration of additional reserving techniques. Original estimates are increased or decreased as additional information becomes known regarding individual claims.

NOTE 4 – RELATED PARTY TRANSACTIONS

Administration: ACCEL's program administration is managed by Alliant Insurance Services, Inc., from whom they purchase their excess liability insurance. Fees paid for this service amounted to \$232,000 and \$226,500 for the years ended June 30, 2018 and 2017. Excess liability insurance expenses were \$3,317,623 and \$3,905,789 for the years ended June 30, 2018 and 2017, respectively.

AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2018 and 2017

NOTE 5 – RETROSPECTIVELY RATED REFUND LIABILITY

The Retrospectively Rated Refund Liability (Retro Liability) calculation is updated annually for eligible program years and related activity, and approved the Board of Directors at its annual June meeting. The Board took action at its June 2017 meeting to restrict \$4,000,000 from the amount available on an ongoing basis. The Board took further action at its June 2018 meeting to restrict an additional \$2,000,000 from the amount available, also on an ongoing basis. At June 30, 2018, the Retro Liability calculation resulted in an initial amount available for distribution for the program years 6 through 32, totaling \$23,816,017. The Retro Liability available to members at June 30, 2018 and 2017 totaled \$17,816,017 and \$19,175,007, respectively. Member cities may elect to have all or a portion of the board-approved refund returned, otherwise the funds will remain in the respective program year under the name of the member city.

The tables below present the amounts available for each member city, net of restrictions, at June 30, 2018 and 2017, respectively. Also presented, are any amounts which were returned after June 30, 2018 and through the date these financial statements were available for distribution, as well as the net amounts available after those distributions, by member city name:

AUTHORITY FOR CALIFORNIA CITIES EXCESS LIABILITY
CLAIMS DEVELOPMENT INFORMATION
For the Year Ended June 30, 2018

The tables that follow illustrate how the ACCEL's earned revenues (net of reinsurance and excess insurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers or excess insurance) and other expenses assumed by ACCEL as of the end of each of the previous ten years. The rows of the tables are defined as follows:

1. Total of each fiscal year's gross earned premiums and reported investment revenue, amounts of premiums ceded and net earned reported premiums and reported investment revenue.
2. Each fiscal year's other operating costs including overhead and loss adjustment expenses not allocable to individual claims.
3. Program's gross incurred losses and allocated loss adjustment expense, losses assumed by reinsurers, and net incurred losses and loss adjustment expense (both paid and accrued) as originally reported at the end of the year in which the event that triggered coverage occurred (called policy year).
4. The cumulative net amounts paid as of the end of successive years for each policy year.
5. The latest reestimated amount of losses assumed by reinsurers for each policy year.
6. Policy year's incurred net claims increased or decreased as of the end of successive years. This annual re-estimation results from new information received on known claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known.
7. Compares the latest reestimated net incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

The columns of the tables show data for successive policy years.
